

**This list was compiled from responses to the following outreach email sent countywide by the Child Care Coordinating Council of San Mateo County and other organizations:**

*San Mateo County Department of Housing has released a Request for Proposals seeking a developer for an affordable housing development with a child care facility in the unincorporated North Fair Oaks area of Redwood City. The “Middlefield Junction” property is located behind the Fair Oaks Health Center on Middlefield Road. (The RFP is available at: <https://housing.smcgov.org/rfp-middlefield-junction>)*

*The County wishes to have a list, of potentially interested child care operators, to give developers who may be looking for a partner to help develop and operate the child care facility. The facility is proposed for up to 12,000 sq ft indoor space and up to 8,000 sq ft dedicated outdoor playground space.*

*If your agency/company is interested in being included in the list of potentially-interested operators, please send your contact information by Thursday, July 26 to Kristen Anderson at [kmanderson@redwoodcity.org](mailto:kmanderson@redwoodcity.org).*

**DISCLAIMER: This list is provided as a courtesy only. It is not exhaustive, and no representation is made as to capacity or qualifications of operators. Proposers are not limited by this list in any way. Child care professionals are in short supply and thus, may work with more than one Proposer. As a result, the County will not penalize proposals that might present very similar designs for childcare space.**
